JanuszDabrowski	EX	191.03	193.04	189.02	573.09
William Wright	MA	182.01	186.05	191.06	559.12
Jerry Yen	MU	174.04	182.03	181.03	537.10
Ed Boss	EX	180.03	173.03	181.01	534.07

We knew Sunday was going to be hot and it didn't disappoint. Conditions were mild but deceiving. The wind was from the South all day which meant it fishtailed anywhere from 4 to 7 o'clock, basically a recipe for disaster if you didn't check the flags or mirage or both. I put my money on the mirage but corroborated my call with the flags. The conditions were definitely more normal than last months head scratcher.

First shot downrange was at 8:23 and last shot was at 12:39. We experienced abnormal etarget behavior on Target 5 a little after 9:30. It continued to be a problem so we shut that target down. After the match when we discovered a bullet had pierced the bottom tube of the frame which caused enough vibration to knock the lower left sensor out of its magnetic bracket to the ground where it still was able to send data, albeit unusable data.

Overall Match Winner was Sling shooter Marc Mittry with 592-25x (6.5mm Swede-w/scope). 1st Sling was George Carr with 588-15x (Palma-w/irons). 2nd Sling was Jim Gaines with 586-23x (Palma?-w/irons?). 3rd Sling was Boris Batkin with 572-16x (Palma?-w/irons).

F-Class Match Winner was Martin Tardif with 575-18x 1st F-class was Francis Lam with Thank you to Gane and Sam for helping set up and Francis and William for help taking down the targets. And thanks as always to that Mark guy for his above and beyond assistance with match prep, set up, line management, tech expertise and a slew of other range and match logistics. The next match is scheduled for Saturday, August 27.

"Believe the wind, it's smarter than you are."
