After some last minute roster attrition and a few welcome walkons there were 17 shooters for August's Long Range Match. The conditions were light for both wind and visibility but light winds at Burbank can cause havoc. A moderate amount of wind will give the shooter a reliable mirage whereas light winds can make the mirage an evil, lying, dirty dog. The lack of 'cleans' (with 1 significant exception) or even '99's are a testament to the difficulty all shooters faced.

In Stage-1, Martin took high score in Open, Mark C topped in FTR and Marc M in Sling. Stage-2 saw Marc C shoot high score, Martin topped Open and Dave C in FTR. The 3rd Stage is where the previously mentioned 'significant exception' reared it's head. Todd F in Open came storming back with the only clean of the day, Marc M topped Sling and Dave C was high FTR. So the last Stage winners all took their respective classes, Todd Fasano rose to Overall Match Winner.

Thanks to the Match Winner, Todd, for showing up at a last minute request to help set up and take down the targets, uprights, flags and electronics. I was disappointed at the lack of volunteers to stay and help break down and put away all the stuff that makes this match possible. It made for an extra long and hot day. Next month we get another Saturday match. See you on September 23rd.
